

Section 1: Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

Product name: CAS Number: EC Number: Ethyl Centralite 85-98-3 201-645-2

## 1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified use: Laboratory chemicals, manufacture of substances

### **1.3 Details of the supplier of the safety data sheet**

Company name:

East Harbour Group Ltd 20 Clough Road, Severalls Industrial Park Colchester, Essex, CO4 9QS United Kingdom

Telephone: Email: +44 (0) 333 242 0100 info@eastharbourgroup.com

1.4 Emergency telephone number

**Emergency telephone:** 

0800 246 1274

## Section 2: Hazardous identification

### 2.1 Classification of the substance or mixture

Acute toxicity - Oral, Category 4

Hazardous to the aquatic environment, long-term (Chronic) - Category Chronic 3

### 2.2 Label elements

GHS label elements, including precautionary statements Pictogram(s)

Signal word Hazard statement(s) Warning H302 Harmful if swallowed H412 Harmful to aquatic life with long lasting effects

Document Number: 226 Version Number: 2 Date: 27.10.2022

## eastharbourgroup.com info@eastharbourgroup.com +44 (0)333 242 0100

Precautionary statement(s)	
Prevention	P264 Wash thoroughly after handling.
	P270 Do not eat, drink or smoke when using this product.
	P273 Avoid release to the environment.
Response	P301+P312 IF SWALLOWED: Call a POISON CENTER/doctor/if you feel unwell. P330 Rinse mouth.
Storage	none
Disposal	P501 Dispose of contents/container to

## **2.3 Other hazards which do not result in classification** None

Section 3: Composition/information on ingredients

## 3.1 Substances

Chemical name	Common names and synonyms	CAS number	EC number	Concentration
1,3-diethyl-1,3- diphenylurea	Ethyl Centralite	85-98-3	201-645-2	100%

## Section 4: First aid measures

## 4.1 Description of first aid measures

General advice

Consult a physician. Show this safety data sheet to the doctor in attendance.

If inhaled

If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician.

In case of skin contact Wash off with soap and plenty of water. Consult a physician.

In case of eye contact

Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician.

If swallowed

Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician.

## 4.2 Most important symptoms and effects, both acute and delayed

ACUTE/CHRONIC HAZARDS: This compound may react violently when severely shocked or heated to extreme temperatures.

## 4.3 Indication of any immediate medical attention and special treatment needed

No data available

Section 5: Fire-fighting measures

## 5.1 Fire Fighting Media and Instructions:

Suitable extinguishing media: Fires involving this chemical should be controlled using a carbon dioxide, dry chemical or Halon extinguisher.

## 5.2 Special hazards arising from the substance or mixture

This chemical is combustible.

## 5.3 Advice for firefighters

Special protective actions for fire-fighters Wear self-contained breathing apparatus for firefighting if necessary

## Section 6: Accidental release measures

## 6.1 Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. Avoid dust formation. Avoid breathing vapours, mist or gas. Ensure adequate ventilation. Evacuate personnel to safe areas. Avoid breathing dust. For personal protection see section 8

## **6.2 Environmental precautions**

Prevent further leakage or spillage if safe to do so. Do not let product enter drains. Discharge into the environment must be avoided.

## 6.3 Methods and material for containment and cleaning up

Pick up and arrange disposal. Sweep up and shovel. Keep in suitable, closed containers for disposal.

## Section 7: Handling and storage

## 7.1 Precautions for safe handling

Avoid contact with skin and eyes. Avoid formation of dust and aerosols. Avoid exposure - obtain special instructions before use.Provide appropriate exhaust ventilation at places where dust is formed. For precautions see section 2.2.

## 7.2 Conditions for safe storage, including any incompatibilities

Store in cool place. Keep container tightly closed in a dry and well-ventilated place.

Section 8: Exposure controls/personal protection

### 8.1 Control parameters

Occupational Exposure limit values no data available

Biological limit values no data available

### 8.2 Appropriate engineering controls

Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday.

### 8.3 Personal protective equipment

#### Eye/face protection

Safety glasses with side-shields conforming to EN166. Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).

### Skin protection

Wear impervious clothing. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace. Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique(without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands. The selected protective gloves have to satisfy the specifications of EU Directive 89/686/EEC and the standard EN 374 derived from it.

Respiratory protection Wear dust mask when handling large quantities.

Thermal hazards no data available

## Section 9: Physical and chemical properties

## 9.1 Information on basic physical and chemical properties

Physical State Colour Odour Melting Point/Range Boiling Point/Range Flammability (solid, gas) Lower and upper explosion limit / flammability limit Flash Point White to grey crystalline powder No data available No data available 73-75°C 325 - 330°C No data available No data available 325 - 330°C

## MATERIAL SAFETY DATA SHEET

## **Ethyl Centralite**

Auto-ignition temperature Decomposition temperature pH Kinematic viscosity Solubility Partition Coefficient n-octanol/water (log value) Vapor Pressure Density and/or relative density Relative vapour density Particle characteristics

No data available No data available No data available No data available less than 1 mg/mL at 21.5°C No data available No data available 1.118 g/cm3 9.3 (vs air) No data available

### Section 10: Stability and Reactivity

10.1 Reactivity 10.2 Chemical Stability

10.3 Possibility of hazardous reactions

10.4 Conditions to avoid10.5 Incompatible materials10.6 Hazardous decomposition products

No data available Stable under recommended storage conditions.

N.N'-DIETHYLCARBANILIDE is an amide. Amides/imides react with azo and diazo compounds to generate toxic gases. Flammable gases are formed by the reaction of organic amides/imides with strong reducing agents. Amides are very weak bases (weaker than water). Imides are less basic yet and in fact react with strong bases to form salts. That is, they can react as acids. Mixing amides with dehydrating agents such as P2O5 or SOCI2 generates the corresponding nitrile. The combustion of these compounds generates mixed oxides of nitrogen (NOx). This compound is incompatible with acids and oxidizing agents. This chemical reacts violently when severely shocked or exposed to extreme temperatures. No data available No data available No data available

## **Section 11: Toxicological Information**

### Acute toxicity

Oral:	No data available
Inhalation:	No data available
Dermal:	No data available
Skin corrosion/irritation:	No data available
Serious eye damage/irritation:	No data available
Respiratory or skin sensitization:	No data available
Germ cell mutagenicity:	No data available
Carcinogenicity:	No data available
Reproductive toxicity:	No data available
STOT-single exposure:	No data available
STOT-repeated exposure:	No data available
Aspiration hazard:	No data available

## **Section 12: Ecological Information**

## 12.1 Toxicity

Toxicity to fish: Toxicity to daphnia and other aquatic invertebrates: Toxicity to algae: Toxicity to microorganisms:

### 12.2 Persistence and degradability

No data available

## 12.3 Bioaccumulative potential

No data available

## 12.4 Mobility in soil

No data available

### 12.5 Other adverse effects

No data available

### Section 13: Disposal considerations

### 13.1 Disposal methods

## Product

The material can be disposed of by removal to a licensed chemical destruction plant or by controlled incineration

No data available No data available No data available No data available

Document Number: 226 Version Number: 2 Date: 27.10.2022

## eastharbourgroup.com info@eastharbourgroup.com +44 (0)333 242 0100

with flue gas scrubbing. Do not contaminate water, foodstuffs, feed or seed by storage or disposal. Do not discharge to sewer systems.

### **Contaminated packaging**

Containers can be triply rinsed (or equivalent) and offered for recycling or reconditioning. Alternatively, the packaging can be punctured to make it unusable for other purposes and then be disposed of in a sanitary landfill.

Controlled incineration with flue gas scrubbing is possible for combustible packaging materials

### Section 14: Transport Information

### 14.1 UN Number

ADR/RID:	Non hazardous
IMDG:	Non hazardous
IATA:	Non hazardous

### 14.2 UN Proper Shipping Name

ADR/RID:	ETHYL CENTRALITE
IMDG:	ETHYL CENTRALITE
IATA:	ETHYL CENTRALITE

### 14.3 Transport hazard class(es)

ADR/RID:	Non hazardous
IMDG:	Non hazardous
IATA:	Non hazardous

## 14.4 Packing group, if applicable

ADR/RID:	Non hazardous
IMDG:	Non hazardous
IATA:	Non hazardous

### 14.5 Environmental hazards

ADR/RID:	Non hazardous
IMDG:	Non hazardous
IATA:	Non hazardous

### 14.6 Special precautions for user

No data available

Not Listed.

## 14.7 Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

No data available

This information is not intended to convey all specific regulatory or operational requirements/information relating to this product. It is the responsibility of the transporting organization to follow all applicable laws, regulations and rules relating to the transportation of the material.

### Section 15: Regulatory Information

### 15.1 Safety, health and environmental regulations specific for the product in question

Chemical name	Common names and synonyms	CAS number	EC number
1,3-diethyl-1,3-diphenylurea	Ethyl Centralite	85-98-3	201-645-2
European Inventory of Existing Commercial Chemical Substances (EINECS)			Listed.
EC Inventory			Listed.
United States Toxic Substances Control Act (TSCA) Inventory			Listed.
China Catalog of Hazardous chemicals 2015			Not Listed.
New Zealand Inventory of Chemicals (NZIoC)			Listed.
Philippines Inventory of Chemicals and Chemical Substances (PICCS)			Not Listed.
Vietnam National Chemical Inventory			Not Listed.

Chinese Chemical Inventory of Existing Chemical Substances (China IECSC)
