

# TECHNICAL SPECIFICATION

## ZINC PEROXIDE 57%

### 1. Basic Information

Product Name	Zinc Peroxide 57%
Structural Formula	$\text{HO}^- \text{Zn}^{2+} \text{OH}^-$
Molecular Formula	$\text{ZnO}_2$
CAS No.	1314-22-3
EINECS	215-226-7
Synonyms	Zinc Superoxide 57%
Applications	Curing additive for rubber applications

### 2. Specifications

Items	Specification
Appearance	Slightly yellow solid
Content	55-58%
Loss on drying	Max 2.0%

### 3. Additional Information

Safety	Always refer to the Material Safety Data Sheet (MSDS) for detailed information on safety.
Packaging	50 kg Carre drums
Storage	The 'Best use before end' date of each batch is shown on the product label.
